If health problems occur or if in doubt, call medical help and provide medical staff with information from this Safety Data Sheet. If unconscious, place the patient onto the recovery position (on the side with the head tilted slightly back) and make sure the airways are clear; never induce vomiting. If vomiting spontaneously, prevent the patient from aspirating the vomit.

Inhalation / aspiration

If used as directed, the product does not cause any health problems. In other cases, discontinue exposure

immediately, move the victim to fresh air, help them remain calm, and do not allow them to walk. Depending on the situation, rinsing the mouth and/or nose with water may be advisable. If the victim is not breathing, administer artificial respiration and seek medical attention.

Eye contact

Remove contact lenses. Rinse wide-open eyes with lukewarm running water for 10 - 30 minutes. Seek medical help. All victims must be referred for a medical examination, even if the contact is only small.

Skin contact

Take all contaminated clothing off immediately. Rinse the affected skin with plenty of lukewarm water for 10–30 minutes.

Ingestion

DO NOT INDUCE VOMITING! – There is the risk of further damage to the digestive tract! There is the risk of perforation of the stomach and esophagus!

IMMEDIATELY RINSE THE MOUTH WITH WATER and drink 2-5 dl cold water to mitigate the thermal effect of caustics. Not suitable soda and mineral water from which they can release carbon dioxide gas. Larger amounts of ingested fluid is not appropriate, it could induce vomiting and possible aspiration caustic into the lungs. If victim has pain in the mouth or throat rinse mouth with water only.

DO NOT USE ACTIVATED CARBON!

Do not give any food. Do not give anything by mouth if the patient is unconscious or having convulsions. Depending on the situation, call the ambulance or secure medical attention as quickly as possible.

4.2. Most important symptoms and effects, both acute and delayed

Inhalation / aspiration

Normally are not expected

Skin contact

Causes severe skin burns.

Eye contact

Irritation, reddening, lacrimation, pain. Risk of irreversible eye damage.

Ingestion

Damage to the gastrointestinal tract.

4.3. Indication of any immediate medical attention and special treatment needed

No special treatment is specified. Symptomatic treatment.
